

ID-COOLING FORESEE AN INTELLIGENT FUTURE WITH YOU

Taipei, June 2, 2026

ID-COOLING, a global leader of Computer Cooling Solution, has expanded to a next level of development and engineering. With the trend of rapid growth in AI industry, ID-COOLING will present a complete portfolio for Server and Workstation Clients.

Cool as Always

The Computex Showcase introduces our latest **FX PRO X Series** AIO Liquid Cooler and LCD Line-up, the Innovative **FROZN A620 SLK** and **FROZN A612**, as well as the tailor-made **FROZN A510 Turbo** and **FROZN A410 V2**. The semi-passive giant **FROZN A610 XL** and SI-friendly **SE-214-XT G2** may also catch your eyes.

More Than A Case

ID-COOLING has also provided the minimalistic line-up of Computer Chassis including the **FLOW**, **VIEW** and **WARE** series, highlighting the **FLOW 500** with an amazing ventilative design and compact size.

Power the Difference

With full solution including modular 80PLUS Platinum **FP Series**, 80PLUS Gold **FG Series** and other entry-level SKUs, ID-COOLING snaps in the industry of power supply as well.

For Professionals

Other than the established product line, we proudly present you our brand-new

ELITE Product line for Workstation and Server platform, including the monstrous **Elite A820** air cooler and elegant **Elite L360** AIO Liquid Cooler.

About ID-COOLING

Founded in 2013, ID-COOLING is a leading brand of computer thermal solution and peripherals with a full-range of manufacturing capability and quality control. We seek our greatest endeavour to provide you with the ever-evolving cooling technology, precise quality control and reachable global distribution network.
